

# GREAT ALASKA

## The Fly Fishing Trip

7 day/6 night \$4395

5 day/4 night \$3495

August through September

## Alaska Fly Fishing

Like all fly fishing lodges, we know what fly fishermen expect in a trip. Your days will be spent fly fishing streams (unless you ask to take a break with some river boat Salmon charters), while your evenings will continue the casting on our record-breaking beach. We select only prime times for this trip and your daily excursions will target Silvers, Steelhead, Grayling, Char and large Rainbow Trout with guides and anglers who share your love of fly fishing.

**Day 1** We'll pick you up at your hotel in Anchorage at 7:45am for the beautiful trip to Great Alaska. After a thorough orientation, you'll enjoy lunch and meet your guide and head for the fish- some to wade a mountain stream, some to drift and float tube at a Rainbow Lake, and others to work the river in a sled or drift boat. And some may opt to learn some fly fishing skills on our famous record setting beach.

**Day 2** Trophy Trout in the Wildlife Refuge is everything you've dreamed it could be - clear mountain water, beautiful drifts, and great fishing. Two to four anglers per boat will drift and wade the Upper Kenai River in search of Char, Silvers, Sockeye and especially Rainbow Trout. These days have the potential to be the best fishing days of your life.

**Day 3** A day of Fly-out fishing for Mountain Grayling is on your agenda. We will choose a mountain lake or the best stream for the peak of the salmon run for Kings, Sockeye or Silvers. The flight alone is a worthy adventure. You'll depart in the morning and return in late afternoon.

**Day 4** We will repeat day two for Rainbow Trout if you enjoyed the experience. Wade Fishing options will be available should a different experience interest you.

**Day 5** Wade fishing in one of our favorite local streams - fly fish for Arctic Grayling in a mountain lake, sight fish for large Rainbows in clear waters, or perhaps drift for Silvers, or Steelhead, in a tidal stream. (Species targeted depend upon seasonal availability.) Those with us for 5 days will return to the Lodge in time for a 2:30pm departure by float plane or commuter flight to Anchorage.

**Day 6** Today, select a repeat of your favorite experience.

**Day 7** One last fly fishing excursion, and return to the lodge at about noon for good-byes and a 2:30pm departure on the shuttle flight or floatplane to Anchorage (transfers not included).
