 Start Saturday - Tuesday

The Perfect Alaskan Vacation

This is our most popular combination of fishing and wildlife adventures! It is the most complete Alaskan Experience with seven action-filled days that include National Parks, wilderness Bear viewing, Denali, glaciers & whales, and world-class Salmon, Trout and Halibut fishing. It is called "The Ultimate" for a reason.

Days 1 & 2 We'll pick you up in Anchorage at 7:45 AM for the beautiful trip to Great Alaska. Check into the lodge, and following a detailed orientation and lunch, board the spectacular bush-plane flight to our exclusive Bear Camp in Lake Clark National Park. The balance of the day will be spent viewing Bears at a camp, named "Best Bush Camp" by Outside Magazine. Overnight at the camp. Rise to the sound of waves lapping at our wilderness shoreline, then a hearty breakfast and more time with the incredible Brown Bear. You will be struck by the silence and the grandeur of this private place as you glass and photograph Alaska's most impressive animal. In the afternoon, return to the main lodge. Settle in to your riverside cabin with private bath. Happy hour and dinner welcome you back to civilization! (You can do just a day trip to Bear Camp if you want more time for fishing and other adventures.)

Day 3 Salmon or Trophy Trout Fishing in the Wildlife Refuge is all that you've dreamed it could be - clear mountain water, beautiful drifts, and great fishing. Two to four anglers per drift boat will wade the Upper Kenai River in search of Char, Sockeye, Silvers, and especially Rainbow Trout (Trout 6/15 - 9/30).

Day 4 Travel to Kenai Fjords National Park for a day of glacier and wildlife cruising. Whales, Orcas, Otter and Puffin are but a few of the residents of this amazing region. Huge glaciers and green mountains drop straight into the sea in an area you won't soon forget. Overnight at the main lodge. You may choose to hike to a waterfall with leaping salmon or kayak a meandering Wildlife Refuge stream.

Day 5 Salmon fishing in a power boat. Two to four anglers per boat will drift, plug, or cast for the world's largest Kings, Silvers, Sockeye and Pinks. (Five Day Trips depart the lodge at 2:30pm). You may choose to hike to a waterfall with leaping salmon or kayak a meandering Wildlife Refuge stream.

Day 6 Fly-out fishing adds another dimension to the Alaska experience and often can provide a special angling experience. We will choose hot spots for the peak of a Salmon run on each day's adventure. Typically fly-outs allow for a little extra morning sleep prior to departure and get you back in time for happy hour.

Day 7 A great final day - take another Salmon charter, or a Kayak trip in the Wildlife Refuge with your guide. Depending on the season, this could include a hike to a clear Salmon spawning stream to view the fish leaping to their breeding grounds. Following group pictures, you'll depart for your scheduled airline flight to Anchorage, or a floatplane departure from your cabin door.
